living areas, laundry, in ground pool and double garage. If you are thinking about running your business from home, this property ticks all of the boxes??

The storage space is more than you'd expect, and of course more than the average home in line with the large gourmet kitchen and dining area. The master bedroom which overlooks the garden is also of epic proportions, and encompasses an open ensuite and a robe that has room for Elton John to store his outfits.

High windows give an airy, spacious and light feel to the main living area, assisting with a seamless flow from the kitchen to family area and then on to the outdoor patio adjacent to the glorious in ground swimming pool.

The fully irrigated garden is of an easy care nature and the green thumbed could without much effort put their own stamp on things and make this space into a tropical private oasis.

The present owner built the home and didn't go short on quality for their own comfort and lifestyle, with Crimsafe security screens, tinted windows, and energy and water efficient systems in place, all you need do is drop your bags and start living the dream.
